The Culturelle Advantage

- Culturelle is the only probiotic supplement in the US containing 100% Lactobacillus GG (*Lactobacillus rhamnosus* GG-ATCC 53103)
  - The #1 clinically studied "good bacteria" in the world with over 800 scientific studies, over 200 of which were with humans†
- Culturelle is the #1 pediatrician recommended probiotic brand††

Potency & Purity

The Lactobacillus GG (*Lactobacillus rhamnosus* GG-ATCC 53103) strain was discovered in 1985 at Tufts University in Boston, MA. Considered the premier probiotic in the world, Lactobacillus GG is demonstrated to be strong enough, sticky enough and fertile enough to survive stomach acids and set up shop in the intestines.*

We certify that our products meet the highest standards of purity and potency. Unlike some products which measure the number of probiotic cultures at time of manufacture, Culturelle® guarantees the stated number of live naturally sourced Lactobacillus GG cultures through the expiration date on the box.

Trust your gut to Culturelle®.
